

Insights into Occupational Fraud

SIAAB 2019 Fall Government Auditing Conference Carol M. Jessup, Ph.D., CPA, CFE October 22, 2019 Abridged version

Overview of Occupational Fraud

- What it is, how much, & how perpetrated
 - Use ACFE data to understand
- Include some data for government only
- Frameworks used to understand fraud
 - Actors and actions
- Anti-fraud measures preventive & detective
- Illinois cases and examples

Association of Certified Fraud Examiners

2018 Report to the Nations (RTTN) on Occupational Fraud and Abuse

Examined almost 2,700 cases in 125 countries

Cumulative losses for those cases were more than \$7 billion 55% of cases reported less the 200,000 loss, with median loss of \$130,000 22% losses = \$1 million or more

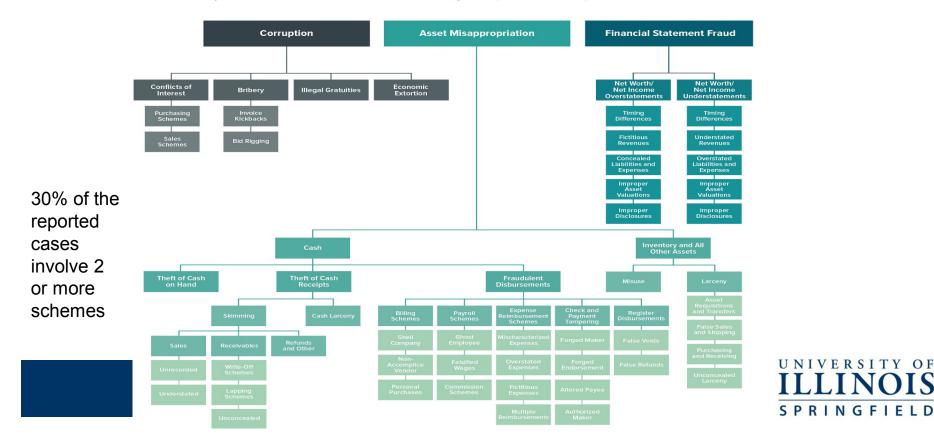

Anecdotal evidence

Occupational Fraud: What it is and How

FIG. 3 How is occupational fraud initially detected in government agencies?

What frameworks help make sense of this?

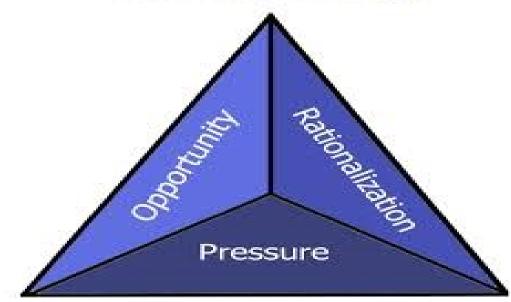

Donald Cressey in the 1950s

The Fraud Triangle

The explanation embraced by the external audit literature (AU-C 240, ISA 240)

In 2004, David T. Wolfe & Dana R. Hermanson published

- Position/function
- Brains
- Confidence/ego
- Coercion skills
- Effective lying
- Immunity to stress

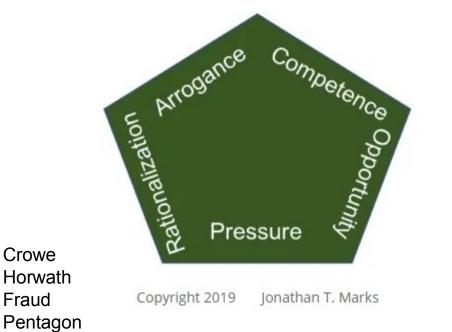

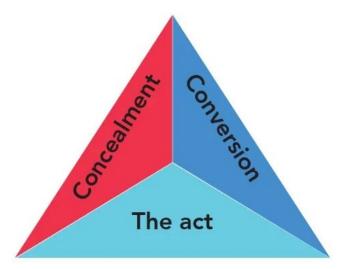

Crowe

Fraud

Distinguish the "actor" from the "action"

Triangle of Fraud Action Albrecht, et.al. Fraud Examination 2006, 2012

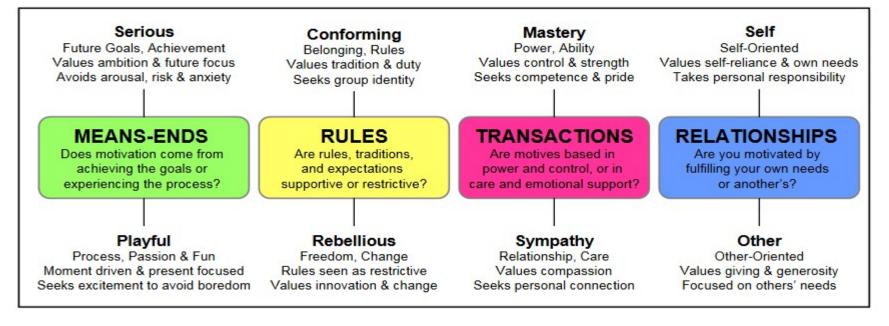

ABC Model

- Bad Apple
 - -Personality characteristics
- Bad Bushel
 - –Group dynamics of collusive behavior
- Bad Crop
 - -Cultural or societal factors
- Ramamoorti, Morrison, Koletar, 2009

Reversal Theory of Motivation

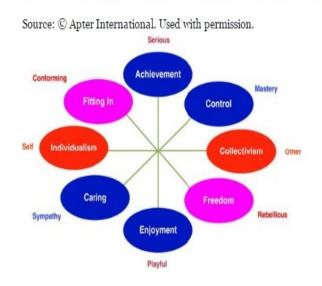

Psychologists Ken. Smith and Michael Apter - 1970s

Reversal Theory of Motivation

Values of the Eight Motivational States

Impact on Fraud Motivation

- 1. Serious need for money due to dire financial circumstances
- 2. Playful thrill of the chase
- Conforming everyone is doing it
- Rebellious pleasure of being bad

- Mastery beating the system
- 6. Sympathy form of selfindulgence
- 7. Self personal gain
- Other using gains for one's family

Fraud Risk Management Process

Figure 1. Ongoing, Comprehensive Fraud Risk Management Process

COSO/ACFE, September 2016

FIG. 7 What anti-fraud controls are the most common in government agencies?

FIG. 8 How does the presence of an anti-fraud control relate to the median loss and duration of fraud in government agencies?

| Control | Percent of cases | | |
|--|------------------|--|--|
| Code of conduct | 86% | | |
| External audit of financial statements | 84% | | |
| Internal audit department | 79% | | |
| External audit of internal controls over financial reporting | 71% | | |
| Employee support programs | 68% | | |
| Management certification of financial statements | 68% | | |
| Hotline | 66% | | |
| Management review | 58% | | |
| Anti-fraud policy | 50% | | |
| Independent audit committee | 49% | | |
| Fraud training for employees | 48% | | |
| Fraud training for managers/executives | 47% | | |
| Formal fraud risk assessments | 35% | | |
| Dedicated fraud department, function, or team | 34% | | |
| Surprise audits | 28% | | |
| Proactive data monitoring/analysis | 27% | | |
| Job rotation/mandatory vacation | 16% | | |
| Rewards for whistleblowers | 12% | | |

✓ Corruption

- Conflicts of Interest
 - × Purchasing Schemes

Purchasing Schemes Data Analytics Tests

Compare purchasing rates for similar products by vendor to identify if products were purchased at higher rates.

Compare purchases by ordering clerk for each vendor and product to identify vendor preference patterns.

Compare the total number of contracts by vendor to identify the presence of any bid-rotation activity.

Determine the average value of contracts awarded per vendor to identify if high-dollar contracts are awarded systematically.

Analyze whether any significant charitable and social contributions are linked to contract awards.

Look for one-time vendors or vendors with expedited payments.

Compare employee names, addresses, and account information to vendor master information to identify potential conflicts of interests or hidden relationships.

+ Sales Schemes

UNIVERSITY OF ILLINOIS SPRINGFIELD

Anti-Fraud Data Analytics Tests

Fraud Risk Management Guide A joint publication of COSO and the ACFE

More Data Analytic Tools

 Moving beyond the Corruption example for Purchasing....

Kickbacks: Analyze the free-text payment descriptions for high-risk keywords such as "expedite fee,"
"facilitation payment," or government liaison names. Asset Misappropriation - Billing scheme: Extract vendors with incomplete profiles, especially those with missing telephone numbers or tax ID numbers.

•Financial statement fraud- Revenue Identify revenue recognized at periodend and subsequently reversed or partially reversed.

STUDY THE LARGEST U.S. MUNICIPAL FRAUD EVER

The U.S. Marshals Service held a live auction in Dixon, Illinois on September 23-24, 2012, to sell more than 300 quarter horses and horse-related equipment belonging to Rita Crundwell. Rita was charged with embezzling \$53 million from the city of Dixon, eventually pleaded guilty, and is currently serving a nearly 20-year sentence. The auctions raised millions of dollars to be returned to the citizens of Dixon Illinois.
