Chris Arbisi, Cyber Resiliency and Business Continuity Manager

Chris Arbisi currently serves as the Cyber Resiliency and Business Continuity Manager at the Department of Innovation & Technology in the Office of the Statewide CISO. Chris has twelve years of IT experience with a heavy concentration in business continuity and disaster recovery for the last four years. Chris leads the Cyber Resiliency and Business Continuity (CRBC) program team that is developing business continuity plans with the sixty-three agencies in the executive branch. He leads the effort to prove sustainability of critical systems in the event of a loss of functionality due to Cyber Disruptions and Disasters.

Chris is certified by the International Information System Security Certification Consortium (ISC2) as a Certified Information Systems Security Professional (CISSP), and the Disaster Recovery Institute International (DRII) as a Certified Business Continuity Professional (CBCP) and Certified Cyber Resilience Professional (CCRP).
